Dear authors,

Congratulations again on your accepted papers!

We are pleased to announce that registration for the IEEE/ACM IWQoS 2025 is now open. Sorry for the delay. IEEE just opened up the registration portal.

Please make a registration via IEEE Event Conduct:

<https://iwqos2025.ieee-iwqos.org/registration/registration-fees>.

Please carefully read the instructions below.

[1] As per the IEEE requirements, at least one author of your paper must be registered for the full conference program. The information on the complete conference program and which session your paper will be part of will be made available shortly. Please note that final paper submission must be accompanied by a valid paid registration code to complete the final submission process.

One AUTHOR REGISTRATION allows the author to upload two (2) full and/or short papers on which he/she is an author or co-author. The registration confirmation code will allow you to upload your final paper to the submission site. Sharing of the code is strictly prohibited.

[2] The final camera ready manuscript of your paper should account for all the critical reviewer feedback, and must be uploaded to EDAS, where your paper was originally submitted. Authors can submit their copyright release via the IEEE electronic copyright function (eCF) through EDAS.

Full paper: up to 10 pages

Short paper: up to 6 pages

Poster paper: up to 2 pages

The accepted paper must be presented by an author of that paper at the conference unless the TPC Chair grants permission in advance of the conference for a substitute presenter, who is qualified both to present and answer questions.

[3] You must complete the conference registration following the instructions on the IEEE/ACM IWQoS 2025 registration page. No paper will be permitted to move to final approval until registration is completed. The registration code will be required to complete the paper approval process.

More details can be found here:

<https://iwqos2025.ieee-iwqos.org/registration/instructions-authors>.

We also received a discount rate of hotel booking from the conference venue, the Seaworld Resort. Please use the link for booking: <https://reservations.travelclick.com/107594?groupID=4730497>, which will expire on 2 June.

Please kindly note that room nights at the conference rate are very limited. The conference rate is nearly 50% off the current public rate. After 2 June, the hotel will provide a discount code offering 15% off the public rate. We will keep you posted further.

There is also a \$56 conference breakfast add-on option. This was intended to be \$56 per day for two people, but due to their system limit, it was only applied once. We've confirmed with the hotel that they will honor the \$56 for the entire stay for two guests. Please add a note in your booking stating that you need breakfast for the full duration of their stay.

If you need to apply for visa, please fill in the form here <https://iwqos2025.ieee-iwqos.org/hotel-travel/visa-letter-request>. IEEE will issue you the supporting letter directly.

Please let us know if you have any questions.

We look forward to meeting you in person at Gold Coast this July!

Best Regards,
Xingliang Yuan
Registration Chair of IWQoS 2025
